

YOUR SPONSORSHIP PLEDGE

Rebuilding Together has continued to provide new and meaningful ways to support our homeowners, despite limitations due to COVID-19. Our efforts over the last 11 months have helped provide a temporarily safer, more secure home environment for our homeowners. We will continue to provide needed services to our clients in 2021.

To accomplish this important mission-focused work, we are launching the 100 Days of Service initiative, to engage our volunteers in acts of service that support our homeowners and our communities. Your support of **100 Days of Service** will provide the following services and resources to low-income homeowners and communities (as conditions and COVID-19 restrictions allow):

- Monthly homeowner wellness calls;
- Resources and referrals;
- Food/grocery deliveries;
- PPE, cleaning supplies, and safety kits;
- Targeted plumbing, electrical, carpentry and painting work on homes;
- Landscaping and other exterior work on homes;
- Community partnerships, outreach, and engagement opportunities;
- Self-directed volunteer activities that can be done in your neighborhood;
- Optional volunteer day of service for your team (partners contributing \$5,000+).
